Appendices

# Overview

# One business in diversified end-markets

Energy & Infrastructure

- Electrical energy 
- Oil & Gas 
- Marine 
- Water 

Industrial & Machines

- OEMs 
- Mining, minerals & metals 

Data Centers

Non-residential buildings

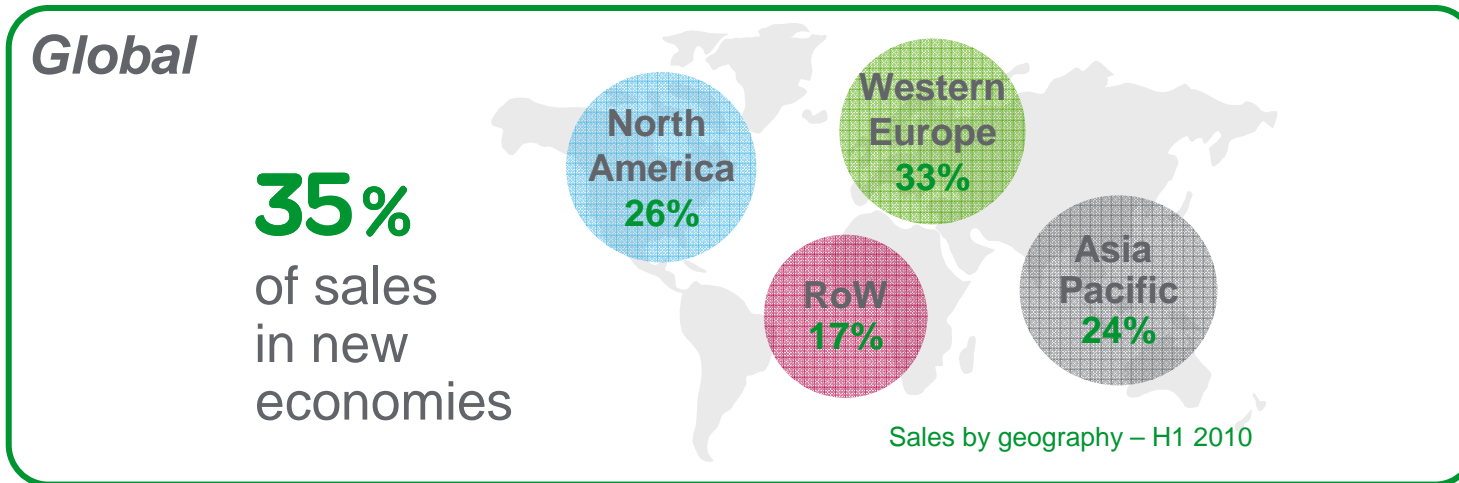

- Hospitals 
- Offices/Public 
- Industrial 
- Retail 
- Life sciences 

Residential

% of 2009 Sales

# One business global, innovative and responsible

# One business ideally positioned to capture the major growth opportunities of our time

**Schneider Electric**

Power		Buildings	
Industry		IT	
CST			

## Smart Grid

- **Renewable** energies
- **Energy efficiency**
- **Electric vehicle** charging infrastructure
- Grid **automation**

Our strength

**Complete solutions for the smart grid**

## New economies

- **2bn additional people** in the energy middle class by 2030
- Already **35%** of Group sales
- **Outperforming** mature countries organic growth by 9 pts p.a. since 2005

Our strength

**Strong presence in new economies (44,000 employees)**

# Strategy and business update

# Strong first-half: the outcome of continued roll-out of strategy and **1ne** program

+6.4%

- ✓ H1 organic growth at +6.4%, strong Q2 at **double-digit**
- ✓ New economies outgrew mature markets by **12 pts**

€1bn

- ✓ Reached €1bn mark in **cost savings**  
Cumulative since Jan. 2009

15.2%

- ✓ Margin up **3.6pts**, at 15.2%  
EBITA before restructuring and Areva Distribution integration costs
- ✓ Net profit **doubled** and reached €735m

Areva  
Distribution

- ✓ Integration well **on track**

# H1 performance boosted by strong traction of shorter-cycle Industry and IT

## Schneider Electric portfolio

## Industry +23% y-o-y

- Solid **rebound** of industrial demand on low comps, very strong performance with **OEMs**
- Strong **new economy** exposure also lifted growth
- Cimac/SCADA acquisitions further reinforced our position in new economies and in solutions

## CST +19% y-o-y

- Strong **recovery** in industry and auto/truck demand
- Aerospace still lagging, especially in commercial sector
- Both Europe and North America bouncing back
- **Turnaround** of financial performance

## IT +8% y-o-y

- **Strong** momentum of small systems in H1, supported by business networks demand
- Demand **accelerating** for large system solutions and services
- Most regions grew **2-digit**, Europe lagging

# Later-cycle Power and Buildings bottoming

## Schneider Electric portfolio

## Power +2% y-o-y

### Medium voltage at trough

- Despite on-going weakness of construction markets in mature markets and lower utility spending
- New economies were more resilient and first to rebound
- Early signs of improvement in mature markets

## Buildings -1% y-o-y

- Still weak construction market
- **Energy Efficiency** contracts and services offset somewhat weakness in commercial building market

- Lower exposure to new economies, but is ramping up with the boost in demand for video-surveillance
- Success of **Pelco** IP offering

## Low voltage back to growth

### Low voltage back to growth

- Trend accelerating, supported by rebound in industrial demand and strong Asia Pacific

### Solutions

- Somewhat impacted by their later cycle profile - but energy efficiency and turnkey renewable projects remain strong support

*% are organic growth rates in H1 2010*

# Solutions to drive energy efficiency and innovation for our customers

## Selected examples

### Renewable energies

Start-up  
business  
within Power

- Start-up business with **very strong growth** in H1
- **Solar farms** in countries such as France, Italy, Czech Republic (started), China, Canada, Ukraine (in backlog)
- **Turnkey** capability

### OEM solutions

Industry  
gaining  
market share

- **Penetration** in OEM market with success of SoMachine
- **Innovative and unique** approach: flexible control and TVDA\* cutting drastically time to market and commissioning costs
- **Growth ~ 50%** in H1

\* TVDA: tested, validated & documented applications

### Performance contracting

"Cash light"  
solutions by  
Buildings

- Successes with federal authorities in the US, universities, municipalities
- **Services and Energy Efficiency** a key driver

### Complete data-centers

IT delivering  
superior  
efficiency

- IT business leveraging Group presence in LV-MV and building management
- **Integrated** energy management from rack to building
- **Energy Efficiency** a key driver

# Strong new economies continued to boost our topline performance

Organic growth in new economies

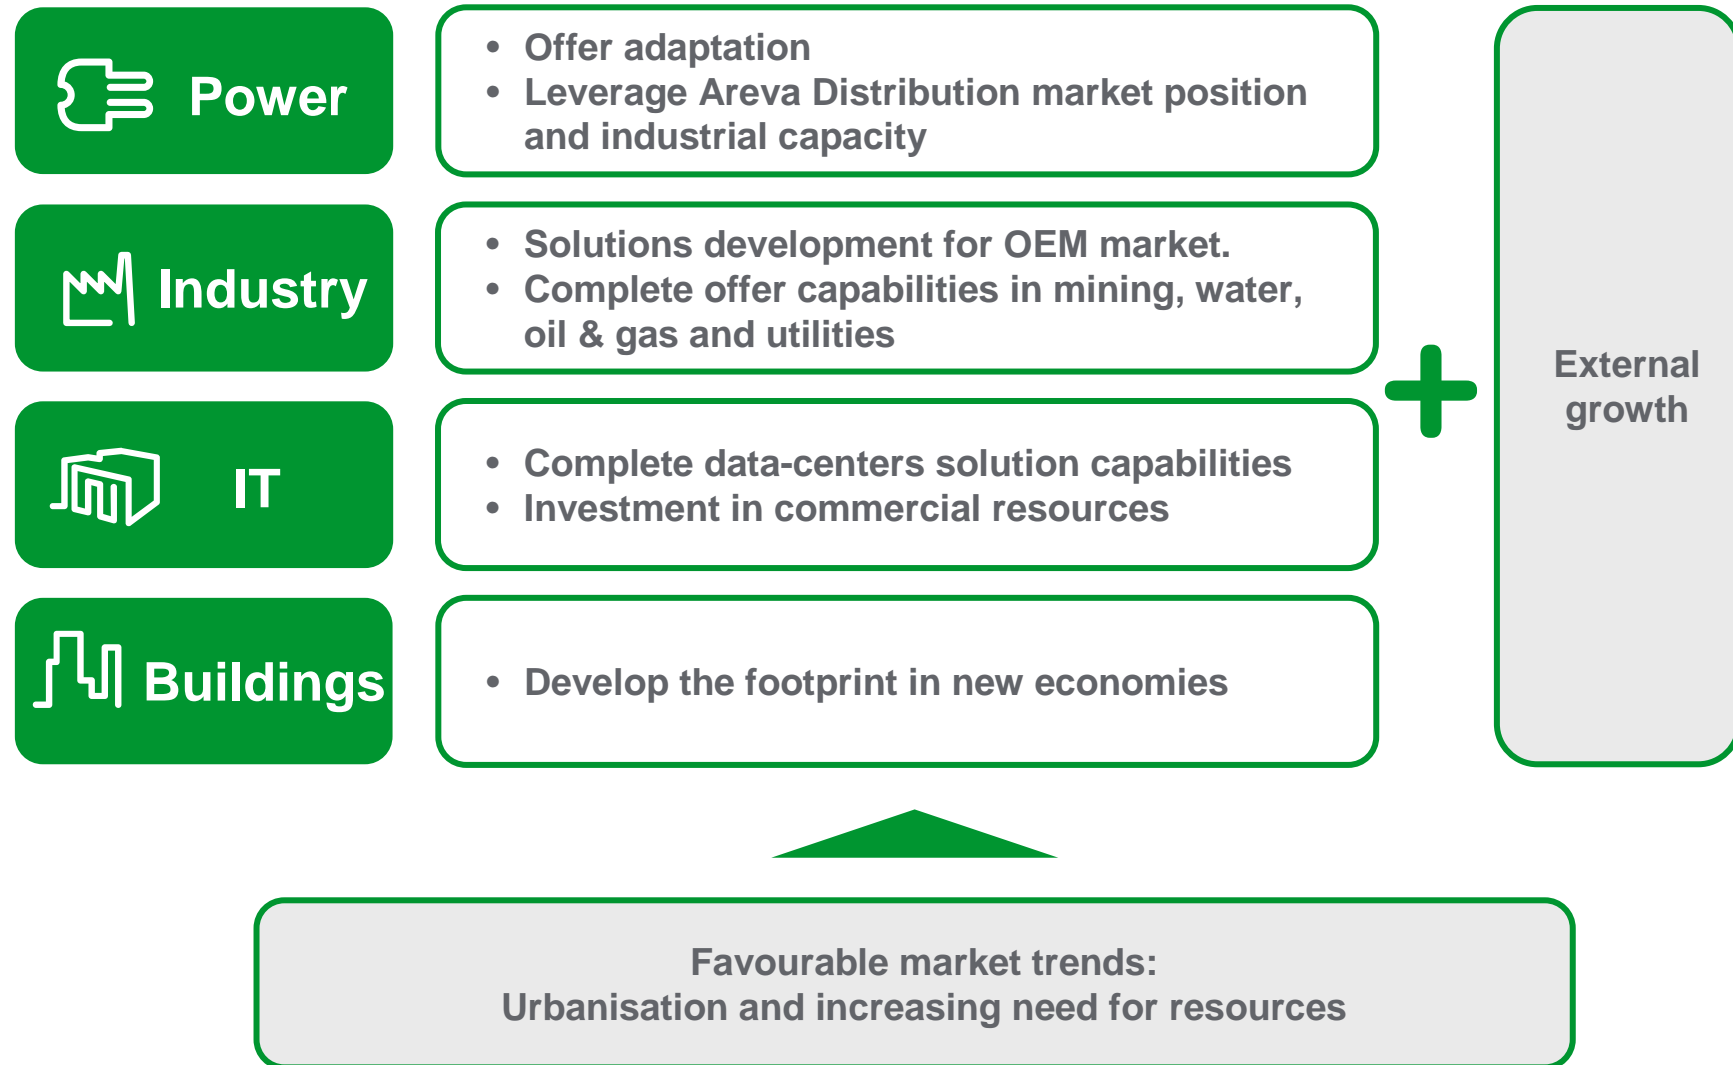

Sales in new economies

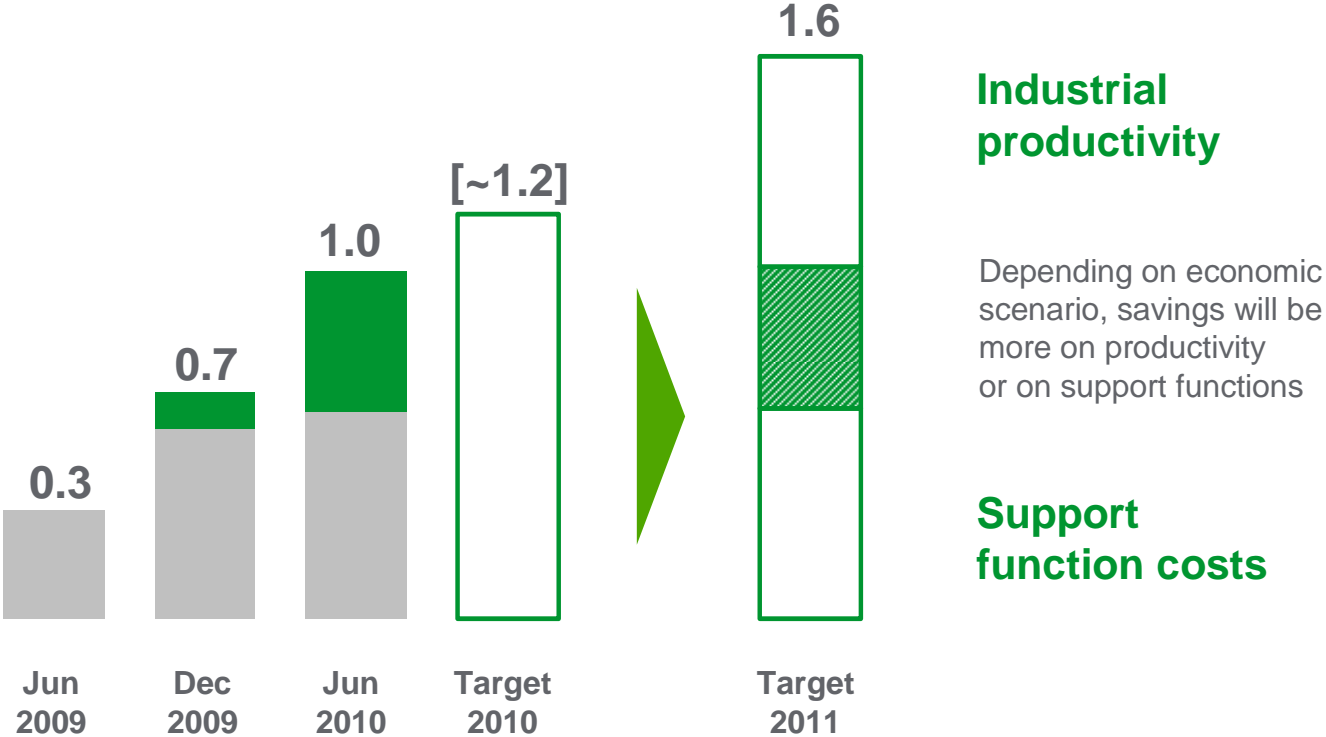

New economies to grow at **world GDP +6pts** across the cycle  
**~50%** of cost of sales to come from new economies in 2011

# Continuous investment in new economies to leverage growth opportunities

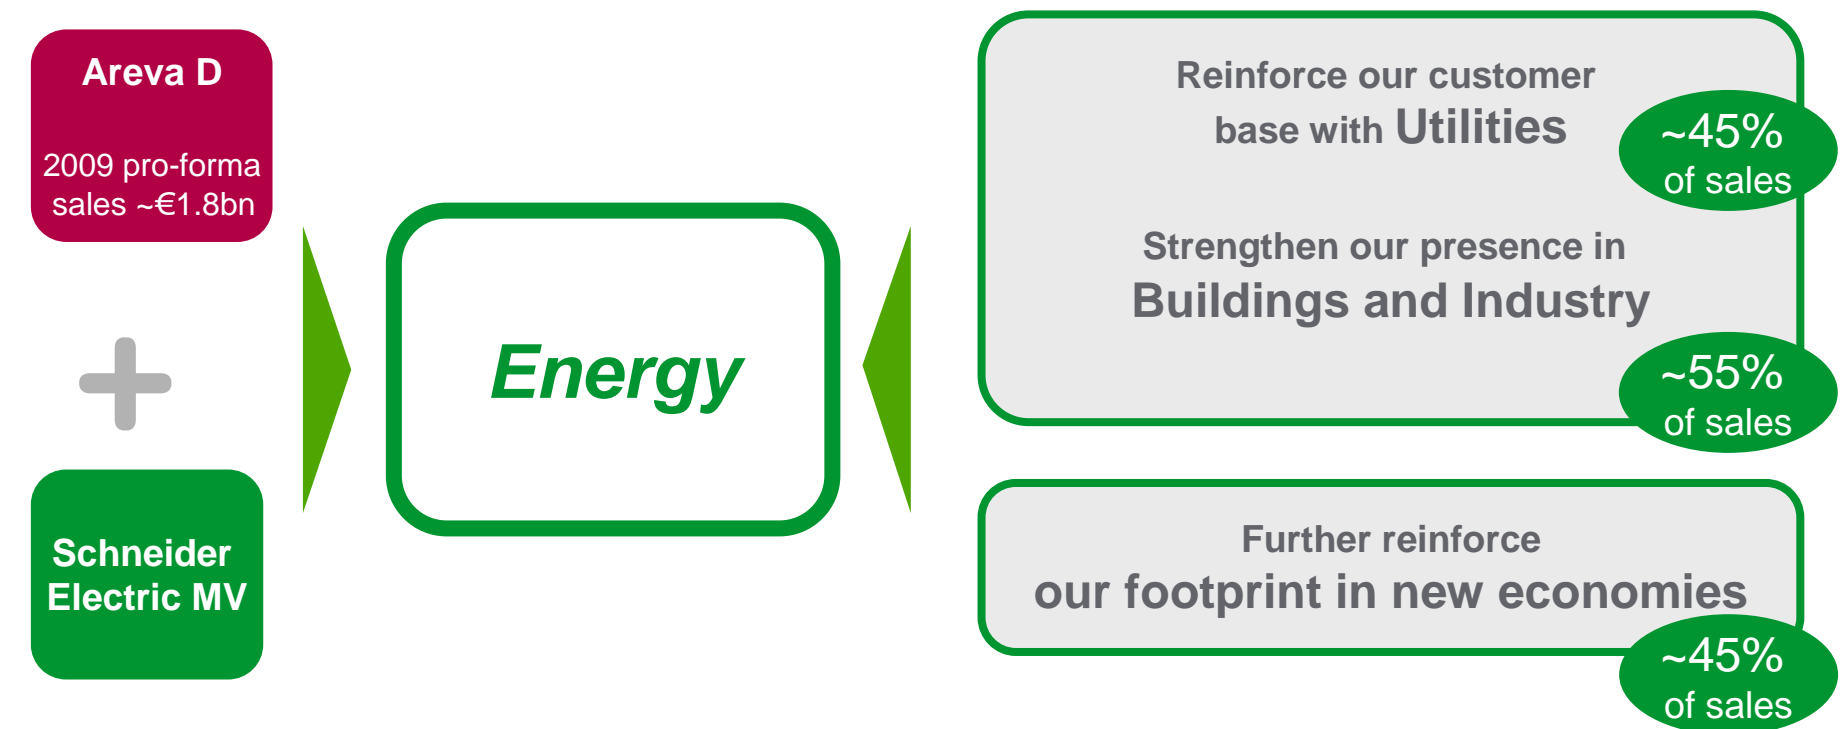

# Efficiency initiatives on track to deliver planned savings

Efficiency savings ramp up to 2011 (€bn)

At least 70% of 3-year plan will be achieved at year-end

# Areva Distribution – a step-change of our medium voltage business

Areva Distribution is a perfect fit to our medium voltage business  
11,000 people reinforcing Schneider Electric's global footprint

# Financial impact of the consolidation of Areva D in line with expectations

## Expected key financial metrics for 2010

### Sales to be consolidated in H2

- corresponding to period from June to December

~€1.1bn

### EBITA margin

- typically a trough level for this business

about 5%

### EPS accretive in 2010

- before integration charges

### Integration charges

- to be fully provisioned in 2010, €15m already booked in H1  
- mostly costs for IT, brand, consulting and people integration  
- tax cost to be assessed

~€50m

Combination in Energy business expected to generate synergies of **€120m**, half to be achieved in year 3

# Finance presentation

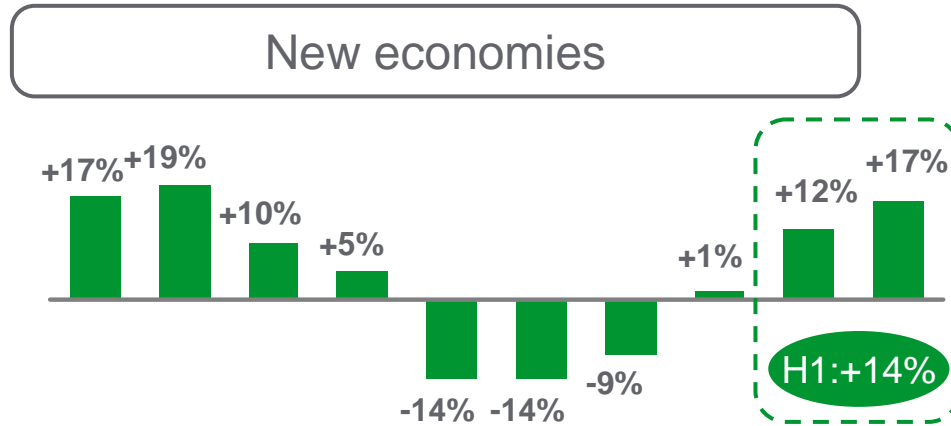

# All businesses back in positive zone leading to double-digit organic growth in Q2

- Reported 2Q sales of **€4,661 million**, up **18.5%**
- Some favorable basis of comparison linked to destocking in H1 2009

# Strong momentum in new economies continued

- ✓ **New economies** above 2008 level
- ✓ **Asia:** driven by China, India and South East Asia
- ✓ **Latin America, Middle East** and **Russia** all at/close to double-digit growth. **Central Europe** stabilised. **Africa** in negative zone

- ✓ Solid sequential improvement in **mature countries** against easier comps
- ✓ In **Europe:** Germany, Italy and France growing - Spain and Nordics still down
- ✓ In **North America:** improvement of industrial and data-centers demand
- ✓ Very strong **Japan** and **Australia**

*New economies: Asia (excl. Japan), Eastern Europe (incl. Russia), Middle East, Africa, Latin America (incl. Mexico)*

# H1 growth in most Group businesses, strongest at Industry, IT and CST

## Analysis of change in Group sales

**Q2**

**% of H1 sales**

Power	56%
Industry	20%
IT	14%
Buildings	8%
CST	2%

**H1**

# Volume recovery and operational efficiency led to strong margin improvement...

In m€	H1 2009	H1 2010	Change
Sales	7,755	8,571	+10.5%

<i>Earnings per share</i>	<i>1.43</i>	<i>2.86</i>	<i>+100%</i>

Progressive phase-out of exceptional restructuring charges

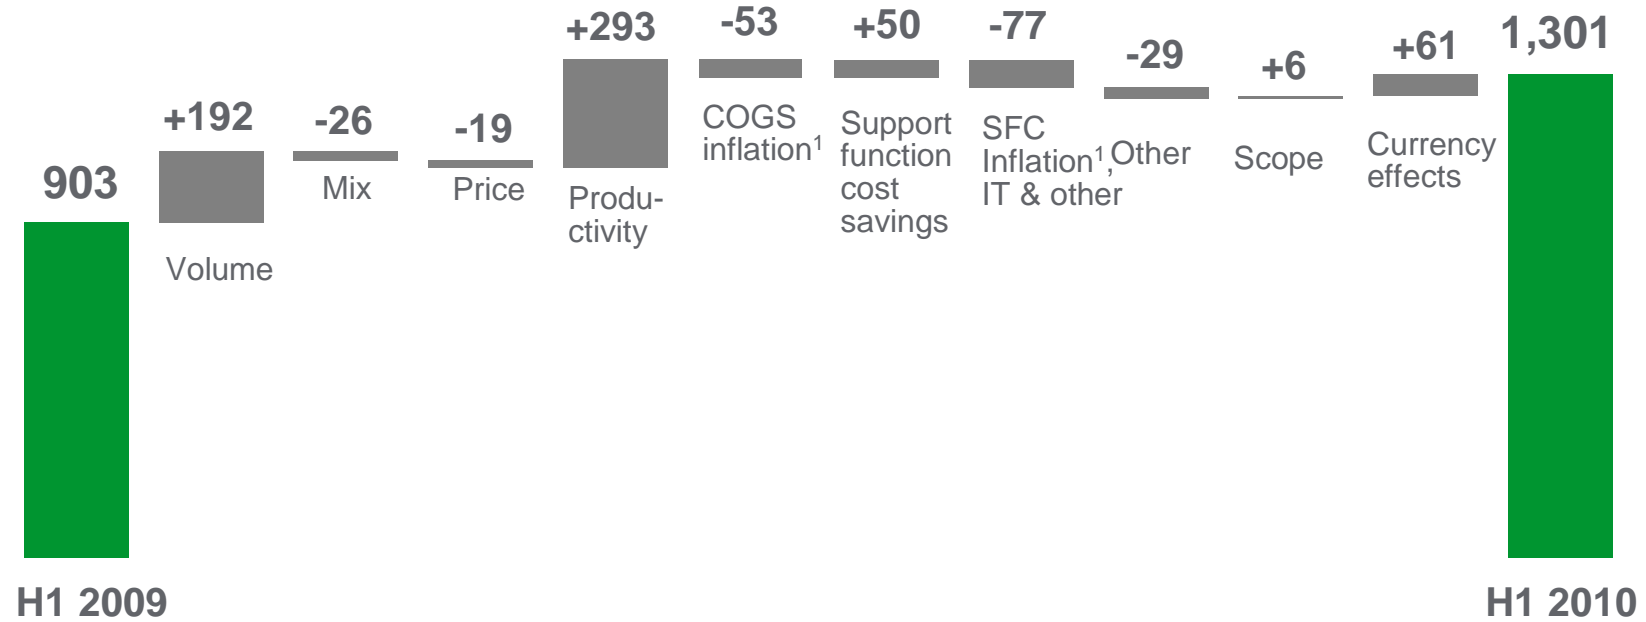

Financial expense impacted by positive currency impact

Underlying tax rate of 24%

<sup>1</sup> EBIT before amortization and impairment of purchase accounting intangibles

# Profit recovery was primarily driven by volume effect and industrial efficiency

Analysis of change (in €m)

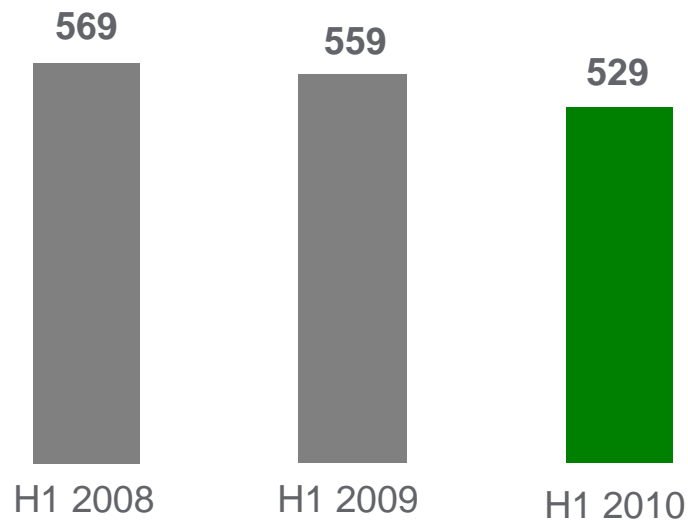

<sup>1</sup> Of which Raw materials: -35, Production labour & other Costs: -18, Support functions: -72; Global IT system:-5

# Excellent control of our fixed manufacturing costs throughout the crisis

## Evolution of fixed manufacturing costs

Excluding R&D and D&A, in €m

- Costs **down 7%** vs. H1 2008 while sales declined only 4% on reported basis
- Continued plant rationalization
- Re-organization of industrial footprint

# Industrial productivity driven by supply chain simplification and effective cost control

H1 industrial productivity performance (in €m)

Purchasing	124
Lean Manufacturing	29
Rebalancing	42
Absorption of fixed manufacturing costs	98
<b>Industrial productivity</b>	<b>293</b>

Strong productivity from One initiatives reinforced by strict control of fixed manufacturing costs

# SFC remain under control despite strong rebound of activities

Support function costs analysis (in €m)

- Cost **reduction in mature** markets continues
- **Investment in new economies** resumed in light of the strong rebound

Cumulated SFC reduction since start of 2009: €591m i.e. ~13%

Note: SFC include R&D and SG&A but exclude other operating income and expenses

# Industry and CST margins bounced back, IT and Power also improving

Sales  
€8,571m

EBITA before restructuring by business<sup>1</sup>

■ H1 2009  
■ H1 2010  
€m and as % of sales

<sup>1</sup> Before restructuring and Areva D integration charges  
Corporate costs of €238m in H1 2010 (€216m in H1 2009)

# Free cash generation temporarily limited by working capital consumption

Analysis of debt change in €m	H1 2009	H1 2010	LTM
Net debt at opening	(4,553)	(2,812)	(4,142)
Operating cash flow	770	1,167	2,105
Capital expenditure – net	(288)	(218)	(506)
Change in working capital	244	(492)	103
<b>Free cash flow</b>	<b>726</b>	<b>457</b>	<b>1,702</b>
Dividends <sup>1</sup>	(315)	(199)	(201)
Acquisitions – net	(41)	(1,271)	(1,293)
Capital increase	0	48	206
Other	41	(236) <sup>2</sup>	(285)
<b>(Increase) / Decrease in net debt</b>	<b>411</b>	<b>(1,201)</b>	<b>129</b>
<b>Net debt at June 30</b>	<b>(4,142)</b>	<b>(4,013)</b>	<b>(4,013)</b>

<sup>1</sup> Dividends distributed in 2010 amount to €525m, of which ~62% have been paid in shares (at shareholders' option)

<sup>2</sup> Of which FX impact of ~€220m (44% of net debt is USD-denominated, after swaps)

# Working capital consumption linked to cyclical pattern and supplies management

Trade working capital (in €bn)

Receivables<sup>1</sup>

52 days (-4 d)

Inventories<sup>2</sup>

91 days (+3 d)

Payables<sup>3</sup>

65 days (+9 d)

- **Raw materials** represent the majority of the inventory increase, in order to ensure customer delivery in a context of supply tensions on some components
- **Demand** was above expectations and accelerated in Q2

1 Days of sales  
 2 Days of COGS (cost of goods sold)  
 3 Days of purchases  
 NB Changes are in days vs. June 2009

# Solid balance sheet post Areva Distribution acquisition

Cash conversion  
(Free cash flow / net income)

Net debt / EBITDA<sup>2</sup>

<sup>1</sup> Based on adjusted net income (239% on a reported basis)

<sup>2</sup> EBITDA of €1,496m in H1 2010 (€1,064m in H1 2009)

# Outlook

# 2010 outlook

## Topline

Recovery of **Industry** and **IT** to continue, but more demanding base of comparison

Later-cycle **Buildings** and **medium voltage** to show sequential recovery

Momentum of **new economies** to stay strong

**Mature markets** back on the path of a slow recovery

## Profitability

Industrial **productivity** and support function **costs savings** of €500-550m

Risks on **raw material** inflation ~€150m

Schneider Electric raises its targets for 2010:

**Organic growth:**

**Profitability Improvement:**

H2 progression broadly in line with H1

full year EBITA margin of **around 15.5%**

before restructuring and consolidation impact of Areva Distribution

# Appendices

Q2 sales details

# Q2 growth led by continued rebound of IT and Industry and recovery of Power

Analysis of change in Group sales

# Power Business

Renewed with growth in the second quarter

## Analysis of change: Power

## By product lines

- ✓ **Medium voltage:** at trough, despite on-going weakness of construction markets and lower utilities spending
- ✓ **Low voltage:** growth accelerated in Q2, supported by rebound of industrial demand and good dynamic in new economies, offsetting the still sluggish power demand in mature markets, especially in Western Europe
- ✓ **Solutions:** solid sequential improvement driven by projects and services in Asia-Pacific and big success of turnkey solutions for renewable projects.

## By region

- ✓ **North America** and **Western Europe** were back to growth in Q2. **Asia-Pacific** remains the key growth driver.

# Industry Business

Continued solid rebound driven by recovering end-markets

## Analysis of change: Industry

## By product lines

- ✓ Growth accelerated in Q2. All product lines continued to benefit from global recovery of end-market demand, **OEMs** in particular and investment in infrastructure in new economies
- ✓ Strong growth of **Solutions**, thanks to successful new offer launches for OEMs

## By region

- ✓ **New economies** continued to be the biggest growth driver, amplified by some anticipated customer orders to mitigate shortage of certain components.
- ✓ **Western Europe** and **North America** also back to double-digit growth.

# IT Business

Pick-up in demand for solutions contributed to sequential improvement in Q2

## Analysis of change: IT

## By product lines

- ✓ **Small systems:** Good dynamic maintained, benefiting from sustained demand on business networks and new product launches
- ✓ **Solutions and services:** Momentum accelerated reflecting improving demand for datacenters.

## By region

- ✓ Most regions recorded double-digit growth. Rebound was particularly strong in **RoW**, led by Russia.
- ✓ **Asia-Pacific** faced some raw material shortage against strong underlying demand
- ✓ Market conditions in **Western Europe** remain challenging and some projects faced delay.

# Buildings Business

Slowly recovering but still affected by the construction downturn

## Analysis of change: Buildings

## By product lines

- ✓ **Product** sales stabilised. Better demand for video security compensated for still negative construction related activities.
- ✓ **Solutions** business was in low single-digit growth. Installed base service and advanced services maintained the good momentum observed in Q1, thanks to energy efficiency projects in North America and Western Europe

## By region

- ✓ **North America** back to growth and saw some early signs of improvement
- ✓ **Western Europe** market conditions remain challenging on the overall
- ✓ **APAC** and **RoW** saw growing demand for security offers

# CST Business

## Continued rebound of key markets

### Analysis of change: CST

### By product lines

- ✓ Strong recovery of demand from automotive and truck customers compared to a weak Q2 2009.
- ✓ Improving end-market demand of the industrial segment.
- ✓ Conditions of commercial aviation segment remains challenging while government orders improved.

### By region

- ✓ **Western Europe** continued to be strong, at a level comparable to Q1.
- ✓ **North America** saw the biggest sequential improvement with strong double digit growth

# Sales increase boosted by the impact of new economies

NB: Starting from 2010, the geographical reporting is based on sales by destination as opposed to sales by country of invoicing.

The Rest of World region now includes Eastern Europe, in addition to Middle East, Africa and South America.

Additional  
appendices

# Recent acquisitions – consolidation impact

	2009		2010			
	Q3	Q4	Q1	Q2	Q3	Q4
<b>Conzerv (India)</b> Power 2008 sales €10 million	3m	3m	3m	~2m		
<b>Microsol (Brazil)</b> IT 2008 sales €24 million	3m	3m	3m	2.5m		
<b>SCADAgroup (Australia)</b> Industry 2010e sales €75 million				3m	3m	3m
<b>Cimac (M-E Gulf)</b> Industry 2009 sales €40 million				~5m	3m	3m
<b>Zicom (India)</b> Buildings 2009 sales €30 million				2m	3m	3m
<b>Areva Distribution</b>					~4m	3m

# Segment information FY 2009

FY2009	€ m	Sales	EBITA <sup>1</sup> before restructuring and one-off gain <sup>2</sup>	% of sales	EBITA	% of sales
	<b>Power</b>	9,233	1,602	17.4%	1,535	16.6%
<b>Industry</b>	2,665	264	9.9%	198	7.4%	
<b>IT</b>	2,270	363	16.0%	334	14.7%	
<b>Buildings</b>	1,268	132	10.4%	121	9.5%	
<b>CST</b>	357	20	5.6%	(4)	(1.1%)	
<b>Holding</b>	-	(363)	-	(387)	-	
<b>Group</b>	<b>15,793</b>	<b>2,018</b>	<b>12.8%</b>	<b>1,797</b>	<b>11.4%</b>	

1 EBIT before amortization of purchase accounting intangibles

2 Before a one-off profit from pension curtailment of €92 million, of which €81 million in Power and €11 million in Industry

*NB: Group figures have been restated to take into account the first-time adoption of IFRS 3 (revised) and the new tax treatment for the portion of the CET tax assessed on value added (CVAE) – please refer to note 1 of accounts.*

*Divisional figures have been restated according to the new organization of the Group, with the creation of a global IT function (IPO: Information, Process and Organization). The related costs are now included in the “Holding” line.*

# Definitions

- EBITDA: EBIT before net depreciation and amortization
- EBITA: EBIT before amortization and impairment of purchase accounting intangibles and impairment of goodwill
- Adjusted net income: Group share in net income adjusted for exceptional restructuring costs (above €100m), one-off pension gains/losses and impairment of goodwill and intangibles, at the period's underlying tax rate
- Cash conversion: Free cash flow / net income
- Free cash flow: Operating cash flow – change in working capital – net capital expenditures
